ABOUT ME

Backend-focused developer with hands-on experience in Python and Django, passionate about building clean, scalable web applications and deploying them on production servers. Enjoys solving problems through automation and clean database design, and is always looking to sharpen backend engineering skills.

EXPERIENCE

Django Developer in PixelCraft Softwares, Kochi *June 2024 - Present*

- ➢ Built and maintained 4+ Django-based web applications, improving backend response times by 20%.
- ➢ Designed relational database schemas in MySQL, optimizing queries for large datasets.
- ➢ Deployed and configured Django applications on a VPS, including Gunicorn, Nginx and remote MySQL access.
- ➢ Used Git and GitHub for version control across all team projects, managing feature branches and pull requests.
- ➢ Collaborated with frontend developers to integrate REST APIs into web and mobile clients.
- ➢ Documented deployment processes and server configuration for smoother handovers to new team members.

Python Developer Intern in CodeNest Technologies *Jan 2024 - May 2024*

- ➢ Assisted in building internal tools using Python and Django, automating repetitive reporting tasks.
- ➢ Practiced Git-based workflows, learning branching and code review practices from senior developers.

EDUCATION

- ➢ BCA from St. Xavier's College, Kochi — 2024 (b.c.a, bachelor of computer applications)

CERTIFICATE

- ➢ Django Web Development Certification, Udemy — 2023
- ➢ Python Programming Bootcamp — 2023

PROJECTS

TaskFlow – Team Task Manager *2024*

- ➢ Built a Django-based task management app with role-based access control and a MySQL backend.
- ➢ Deployed the app to a VPS with a custom domain and remote database access.

InventoryPro *2023*

- ➢ Developed an inventory tracking system using Django and Git for version control, used by a local retail store.

SKILLS

Backend: Django, Python, REST APIs, MySQL

Deployment & Version Control: VPS, GitHub, Git, Nginx, Gunicorn

Web Development: HTML, CSS, JavaScript, Bootstrap

Soft Skills: Problem solving, adaptability, clear documentation, teamwork
